

## Final Files Checklist

Congratulations on your recently accepted article to IEEE Access. Before submitting final files through the [IEEE Author Portal](#), please carefully review the final files checklist below to ensure that all your files are prepared according to our production guidelines. Please note that IEEE Access has a rapid publication process, so there is little to no copyediting. Therefore, it is the authors' responsibility to pay attention to detail to ensure the final published version of your article is high quality.

For more information on what to expect post-acceptance, please visit our [Post Acceptance Guide](#).

Final Files Requirements	Check Box
<p><b>Carefully review all comments from the Editor and reviewers to ensure that you make the necessary <u>minor</u> changes to your manuscript before submitting final files.</b></p> <p>Please be advised that you are <b>not permitted</b> to add or remove authors or references post-acceptance. However, we encourage you to check the formatting of your references to ensure that they are accurate in terms of bibliographic details as well as consistent with <a href="#">IEEE style</a>.</p> <p>Once you submit final files, the accepted version of the article will be published Early Access on IEEE <i>Xplore</i> within 2-3 days, and authors will receive page proofs from the production team within 7-10 business days. <b>Once an article has been published it cannot be edited or withdrawn. Any edits required after publication will require a Correction article, so we advise that you carefully update your article prior to submitting final files.</b></p>	<input type="checkbox"/>
<p><b>Ensure all math equations are properly formatted according to IEEE guidelines (if applicable).</b></p> <p>The main guidelines to keep in mind for math equations are:</p> <ul style="list-style-type: none"> <li>• Single letter variables should be in italic. Multiple letter variables, functions and labels should not be in italic.</li> <li>• If you write <i>ab</i> in italics, it means <math>a \times b</math>. Use this visualization to correct all your math.</li> <li>• Two italic variables next to each other means multiplication. Only use an explicit multiplication sign if absolutely needed.</li> <li>• Use the proper multiplication sign and not an asterisk. If you want to use a dot, use a centered dot and not a period (full-stop).</li> <li>• Physical units must not be in italic.</li> <li>• There should always be a space between a number and the units (with the exception of the degree symbol and %).</li> <li>• Use bold font for vectors.</li> </ul> <p>For more information on editing mathematics per IEEE guidelines, <a href="#">please click here</a>.</p>	<input type="checkbox"/>

<p><b>Carefully review the grammar to ensure all grammatical errors have been corrected.</b></p> <p>IEEE Access only provides light editing during production, so it's important that authors carefully review their grammar prior to submitting final files. If needed, IEEE Access offers <a href="#">PaperPal Preflight</a> (free or paid version) to assist authors with checking their article for grammar issues.</p> <p>Additionally, IEEE Access authors are eligible for discounts at the following language editing services:</p> <ul style="list-style-type: none"> <li>• <a href="#">American Journal Experts</a>: 10% discount</li> <li>• <a href="#">Enago</a>: 30% discount (<a href="#">review Enago's services for authors in Chinese</a>)</li> </ul>	<input type="checkbox"/>
<p><b>Final Manuscript in MS Word or LaTeX with all author biographies and photos included.</b></p> <p>Required IEEE Access templates can be found on the <a href="#">Preparing Your Article</a> page of our website.</p> <p>We suggest that you carefully review all author biographies to ensure the information (name, affiliations, etc.) is up to date and correct. Please also be sure to check that the funding information (if applicable) is included and correct.</p> <p>Finally, if you wish to provide an acknowledgement section, please do so before submitting final files.</p>	<input type="checkbox"/>
<p><b>A PDF of the final manuscript in double column, single-spaced format named "FINAL Article.pdf".</b></p> <p>Please note that once an author submits final files, the <a href="#">accepted version</a> of the article will be published Early Access on IEEE <i>Xplore</i> within 2-3 days, and authors will receive page proofs from the production team within 7-10 business days. The corresponding author is responsible for making sure that all co-authors carefully review the page proofs and provide any necessary changes prior to approval. Once the proof is approved, the Early Access version of the article will be replaced by the final, approved version on IEEE <i>Xplore</i>.</p>	<input type="checkbox"/>
<p><b>Video(s) included in peer review (if any).</b></p> <p>Only videos that have been peer reviewed can be published with the article. As a reminder, the video file should not exceed 100 MB.</p>	<input type="checkbox"/>
<p><b>A Graphical Abstract (GA) which provides a concise, visual summary of the findings of your article.</b></p> <p>The GA should be a figure or image from the accepted article. The ideal size for a GA is 660 x 295 (JPG format, &lt; 45 KB). If you submitted a video with your article, the video will automatically become the GA and you will need to supply a still image to act as an overlay. For more information on the GA, please visit our <a href="#">Post Acceptance Guide</a>.</p>	<input type="checkbox"/>

<b>A Word file that indicates: a) the file name(s) of the GA and overlay (if applicable), b) a caption for the GA that should not exceed 60 words.</b>	<input type="checkbox"/>
<b>Supplementary materials (if any).</b>  Be sure to provide any supplementary materials that are separate from the manuscript with your final files to ensure they are published alongside your article. Supplementary materials can be appendices, video, additional graph/figures, etc. All supplementary materials should have been included in peer review or they cannot be published. Supplementary materials should be uploaded as a .zip file.	<input type="checkbox"/>
<b>If the figures/photos are not embedded directly within the final article, please submit them as a separate PDF, Word, .eps, .ps, or .tiff files.</b>	<input type="checkbox"/>
<b>Have your Article Processing Charge (APC) information ready.</b>  After you submit final files, you will automatically be directed to the Electronic Copyright Form. Once the copyright information is completed, within a few business days you will receive an email from Copyright Clearance Center (CCC) to settle <a href="#">your APC balance</a> by check, credit card, or wire transfer. If you need assistance with the site or payment process, please contact CCC Customer Service at <a href="mailto:IEEESupport@copyright.com">IEEESupport@copyright.com</a> .	<input type="checkbox"/>
